

INDEX TO VOLUME 28

The asterisk (*) preceding the page number indicates an original article in the Archives. Subject entries are made for all articles. Author entries are made for original articles and society transactions. Book Reviews, Obituaries and Society Transactions are indexed under these headings in their alphabetical order under the letters B, O and S, respectively.

- Abnormalities**, skeletal malformations and striatal syndrome, 201
- Abscess**: See also **Brain**, abscess
peritonsillar abscess and mydriasis, 928
- Accommodation**: See **Eye**, accommodation
- Achylia gastrica**: See **Stomach**, achylia
- Acid**, Dialylbarbituric: See **Barbital**
- Acromegaly**, case of tumor of anterior cranial fossa in feeble-minded patient with encephalopathy and acromegaly and with integrity of hypophysis, 438
- Adenoids**, relation of tonsils and adenoids to infections in children, 1210
- Adenomas**, should adenomas of hypophysis and cysts of Rathke's pouch be considered as suprasellar or intrasellar tumors? 1439
- Adrenals**: See **Suprarenals**
- Adson, A. W.**: Malignant neurofibroma of scalp: report of case, *167
- Agraphia**, motor elements in agraphia (disturbances of writing and forced grasping), 1204
- Ahrens, R. S.**: Neurologic aspects of primary anemia, *92
- Alcoholism**, abstinence phenomena in chronic alcoholic patients, 1429
tactual perception in alcoholism; study of influence of alcoholic and of other psychotic states on tactual after-effects, *37
- Allen, F. H.**: Treatment for delinquent behavior, 739
- Allen, S. S.**: Tumors of third ventricle, *990
- Alpers, B. J.**: Cranial hyperostosis associated with overlying fibroblastoma, *339
Group of tumors of spinal cord, 461
Progressive degenerative subcortical encephalopathy (Schilder's disease), 933
- Amaurosis**: See **Blindness**
- Amentia**: See **Feeble-mindedness**
- American Medical Association**, Scientific Exhibit, Milwaukee Session, 1415
- Amyotrophy**: See **Muscle**, atrophy
- Analgesia**, case of congenital general analgesia, 949
- Anemia**, neurologic aspects of primary anemia, *92
parenteral use of liver extract in pernicious anemia, 712, 1207
pernicious, etiological relationship of achylia gastrica to, 442
pernicious, spinal cord disease in, 425
- Anesthesia**, combination therapy of induced narcosis and fever: its effects on "affective syndrome"; preliminary report, *1169
criminal confessions under narcosis, 1221
spinal, disseminated encephalo-myelitis following, 451
- Aneurysms**, cerebral arteriovenous aneurysms, 1437
- Angina pectoris**, laminectomy with posterior root section for angina pectoris, 734
- Angioma**, calcified, of brain, report of case, 951
venous and arteriovenous, of brain, clinical and roentgenographic study of 8 cases, 946
- Angiomatosis retinae with cerebellar cyst** (Lindau's disease), 1201
- Angioreticuloma**, case of angioreticuloma and pathology of hemangioma, 435
- Angiospasm**: See **Vasomotor System**
- Anomalies**: See **Abnormalities**
- Anophthalmos**: See **Eyes**, absence of
- Anthonisen, N. L.**: Involution melancholia, 959
- Aphasia**, critical study of case of aphasia, *1178
traumatic sensory aphasia with recovery, 225
- Apparatus**, results of stimulation of tegmentum with Horsley-Clarke stereotaxic apparatus, *513
- Arachnoiditis** of optic chiasm, 1209
- Argyll Robertson Pupils**: See under **Pupils**
- Aronson, L. S.**: Conduction of labyrinthine impulses to cortex in experimental epilepsy, 1231
- Association for Research in Nervous and Mental Disease**, 13th annual meeting, 1415
- Asthma** amenable to spinal treatment, 927
- Astrocytes**, cytogenesis of oligodendroglia and astrocytes, *1030
- Ataxia**, five cases of Marie's cerebellar ataxia, 936
- Athetosis**, localization of posthemiplegic athetosis, 448
posthemiplegic athetosis; report of case; rôle of corticospinal pathways in production of choreiform and athetoid movements, *1091; correction, 1415
unilateral, with encephalographic findings, 931
- Atrophy**; hemiatrophia faciei; unilateral trophic disorders of face, 1209
- Auditory tracts**, action currents in central nervous system, action currents of auditory tracts, *1104
- Back**, stiff, amenable to spinal treatment, 927
- Bailey, P.**: Spongioblastomas of brain, 1223
- Bárány method** of localization of intracranial tumors, 226
- Barbital**, calcium content of brain and its distribution in various regions during dialylbarbituric acid narcosis; experimental study, *405
indispensable uses of narcotics; chemistry of barbital and its derivatives, 924
- Bard, P.**: Cortical representation of certain postural reactions and normal functioning of cortical remnants, 745
- Bazett, H. C.**: Studies in sensation; chemical factor in stimulation of end-organ giving temperature sensations, *71
- Behavior**, development of behavior patterns and myelinization of tracts in nervous system, *1365
in its relation to development of brain, 909
- Bender, L.**: Corticofugal and association fibers arising from cortex of vermis of cerebellum, *1

INDEX TO VOLUME 28

- Benedikt's syndrome with autopsy, 718
- Bentley, I. A.: Treatment of epidemic encephalitis; review of work of Matheson commission, *897
- Berkwitz, N. J.: Quantitative studies on human muscle tonus; analysis of 82 normal and pathologic cases, *603
- Bevan, E. B.: Three cases of tabes dorsalis with unusual findings, 457
- Bishop, G. H.: Nerve degeneration in poliomyelitis; physiologic and histologic studies on roots and nerves supplying paralyzed extremities of monkeys during acute poliomyelitis, *272
- Bleuler, M.: Inconstancy of formal structure of personality; experimental study of influence of mescaline on Rorschach test, *52
- Blindness and papilledema in Guernsey calves, usually bulls, 710
quinine amaurosis, 929
- Blood, cerebral circulation: effect of caffeine on cerebral vessels, *1290
cerebral circulation; microcinematographic studies of effect of certain drugs on cerebral circulation, 944
cerebral circulation; vagal pathways of vasodilator impulses, *1243
cholesterol content in epilepsy and in feeble-mindedness, *357
cutaneous histamine reaction as test for collateral circulation in extremities, 921
lecithin and cholesterol in cerebrospinal syphilis including dementia paralytica and tabes, *399
pressure, high, retinal changes in hypertension and in renal disease, 195
pressure in tumors of brain, *891
sugar determinations in patients with so-called "primary myopathies," 1211
sugar studies in abnormal mental states, 918
vessels; differentiation of peripheral arterial spasm and occlusion in ambulatory patients, 186
- Bone, skeletal malformations and striatal syndrome, 201
- BOOK REVIEWS:
- Abcès cérébraux et leur traitement; J. Piquet, 966
- Accidents, Neuroses and Compensation; J. H. Huddleson, 1463
- Agents physiques dans le traitement des maladies nerveuses; H. Schaeffer and E. Biancani, 250
- Anatomie élémentaire des centres nerveux et du sympathique chez l'homme; P. Gillis, 1464
- Anatomy of Nervous System; S. W. Ranson, 1242
- Apraxie; O. Sittig, 245
- Bell Witch of Middle Tennessee; H. P. Miller, 1242
- Brain and Personality: Studies in Psychological Aspects of Cerebral Neuropathology and Neuropsychiatric Aspects of Motility of Schizophrenics; P. Schilder, 1241
- Cerebral Injury in New-Born Children Consequent on Birth Traumas, with Inquiry into Normal and Pathological Anatomy of Neuroglia; E. Rydberg, 1240
- Commoner Nervous Diseases for General Practitioners and Students; F. J. Nattrass, 1241
- Craving for Superiority; Raymond Dodge and Eugen Kahn, 1464
- Criminals and Criminal Justice; N. F. Cantor, 1239
- Cytology and Cellular Pathology of Nervous System; W. Penfield, 752
- BOOK REVIEWS—Continued
- "Das Stehen" (Standing: Static Reactions, Equilibrium and Muscle Tonus, with Special Consideration of Their Retention in Animals Without a Cerebellum); G. G. J. Rademaker, 679
- Development of Highest Motor Function in the Child; M. S. Lebedinsky, 480
- Diagnostic des tumeurs cérébrales et épreuve de l'encéphalographie artérielle; Egas Moniz, 1457
- Encephalitis Lethargica. Its Sequelae and Treatment; C. von Economo, 1242
- Épilepsie chez l'enfant et le caractère épileptoïde; G. Robin, 1463
- Foundations of Abnormal Psychology; F. A. Moss and T. Hunt, 756
- Funktion des Gewissens in den neurotischen Krankheiten; Levy-Stuhl, 1463
- Genius and Creative Intelligence; N. D. M. Hirsch, 967
- Growth and Development of Child: IV. Appraisal of Child. Mental Status. Physical Status. Report of Committee on Growth and Development. White House Conference on Child Health and Protection, 1239
- Grundlagen einer neuen Psychiatrie. Ein Lesebuch für Laien, Studenten und Forscher; R. Wahle, 246
- Grundriss der Alkoholfrage; R. Wlassak, 249
- Grundzüge der Neurochirurgie; W. Lehmann, 1460
- Hellungsmechanismen in der Schizophrenie; M. Müller, 755
- Histopathology of the Central Nervous System; L. Bouman and S. T. Bok, 1459
- Intracranial Tumours; H. Cushing, 479
- Intuition délrante; R. Targowia and J. Dublineau, 247
- Lang's German-English Medical Dictionary; revised and edited by M. K. Meyers, 1464
- Lebensalter und Geschlechter; C. H. Stratz, 250
- Lehrbuch der experimentellen Psychologie; J. Fröbes, 756
- Let's Be Normal! Psychologist Comes to His Senses; F. Künkel, 248
- Malades dits imaginaires; M. Nathan, 753
- Medical Psychology: Mental Factor in Disease; W. A. White, 1238
- Mental Defective; J. Berry and R. C. Gordon, 1464
- Mental Nursing (Simplified); O. P. N. Pearn, 1242
- Neurotomie rétro-gassérienne partielle dans le traitement de la névralgie faciale (étude anatomique—résultats cliniques); A. Sicard, 966
- Organneurose im Lichte neuerer Anschauungen. E. Hoffstaedt, 1461
- Physical Basis of Personality; C. R. Stockard, 1462
- Précis de diagnostic neurologique pratique; J. Lévy-Valensi, 965
- Probleme der klinischen Psychiatrie; K. Schneider, 248
- Prohibiting Minds and Present Social and Economic Crisis; S. Paton, 754
- Psychoanalyse. Eine Kritik; O. Bumke, 962
- Psychoanalyse und seelische Wirklichkeit; P. Maag, 1461
- Psychology of a Primitive People: A Study of the Australian Aborigines; S. D. Porteus, 1458
- Rééducation psychothérapique: Contrôle de l'équilibre mental et nerveux; P. Prost, 1462
- Reflejos neurovegetativos; E. Gorriti, 755

INDEX TO VOLUME 28

BOOK REVIEWS—Continued

- Reflex Activity of Spinal Cord; R. S. Creed, D. Denny-Brown, J. C. Eccles, E. G. T. Liddell and C. S. Sherrington, 1236
- Retikulo-Endotheliale System der Schizophrenen: Experimentell-klinische Untersuchungen zum Schizophrenieproblem; F. Meyer, 478
- Ritual: Psychoanalytic Studies; T. Reik, 1234
- Schizophrenia; H. Lundholm, 963
- Selected Writings of John Hughlings Jackson; J. Taylor; G. Holmes and F. M. R. Walshe, 967
- Six Theories of Mind; C. W. Morris, 1241
- Stimme und Sprache in der Hellpädagogik, E. Fröschels, 1462
- Structure of Insanity: A Study in Phylopathology; T. Burrow, 1464
- Text-Book of Psychiatry for Students and Practitioners; D. K. Henderson and R. D. Gillespie, 249
- Verbrechen als Schicksal: Studien an kriminellen Zwillingen; J. Lange, 1459
- Borna disease, types of virus that show close biologic relationships with herpes virus (poliomyelitis, lyssa, Borna disease), 1419
- Bradycardia: See Pulse rate
- Brain: See also Arachnoid; Cerebellum; Corpus striatum; Meninges; etc.
- abscess, mortality from, 1443
- abscess, putrid, and its pathogenesis, 733
- abscess, temporosphenoidal abscess on left side of mastoid origin; drainage by Lemaitre's method, 196
- abscess treated by method of exclusion of subarachnoid spaces, 191
- absence of occipital lobe of brain (porencephaly) with essentially normal vision, *160
- alternating syndrome of red nucleus with involuntary movements of face and forearm, 717
- atrophy; Pick's disease, preliminary report, 1449
- behavior in its relation to development of brain, 909
- Benedikt's syndrome with autopsy, 718
- blood, circulation of; afferent impulses from blood vessels of pia, *240
- blood circulation of; effect of caffeine on cerebral vessels, *1290
- blood, circulation of; vagal pathway of vasodilator impulses, *1243
- calcium content of brain and its distribution in various regions during diallylbarbituric acid narcosis; experimental study, *405
- conduction of labyrinthine impulses to cortex in experimental epilepsy, 1231
- cyst, colloid, of third ventricle, 726
- cysts; effects of necrobiotic agents on walls of cysts experimentally produced in brains of dogs, *1046
- dorsal longitudinal bundle of Schütz—fasciculus perileptomialis—and its relations to central gray matter, 429
- effect of hyperventilation on excitability of motor cortex in cats, experimental study, *571
- encephalography: See Brain, roentgenography
- état vermoulu, a clinicopathologic contribution to so-called état vermoulu, 1435
- function; cortical representation of certain postural reactions and normal functioning of cortical remnants, 745
- function in learning; frontal lobes, 1433
- function of inferior olive, 724
- ganglion cell inclusions in substantia nigra, 196
- gray commissure, anatomicoclinical study, 926

Brain—Continued

- heavy (megalecephalon), 189
- hematoma, chronic, subdural; simple drainage as method of treatment; report of 8 cases, 910
- herniations, cortical, 1209
- histology of cerebral peduncle in cuttings made opposite point of emergence of common oculomotor nerve in encephalitis with paralysis of that nerve, 711
- in acute rheumatic fever; nonsuppurative meningoencephalitis rheumatica, *844
- in cyclopean goat, 179
- in Paget's disease of skull, 1425
- in prehistoric and recent races, 1198
- inflammation of gray substance of cerebral trunk (superior and inferior polioencephalitis) after antirabic vaccination, 919
- injuries; atlanto-occipital evacuative trepanation in contusions of, *112
- injuries, management of acute brain injuries, with special reference to indications for operation, 915
- injuries; suboccipital drainage in cases of intracranial trauma, 444
- microcinematographic studies of effect of certain drugs on cerebral circulation, 944
- pathway of vagus impulses to cerebral vessels, 235
- progressive pallidal rigidity and congenital regressive rigidity, 2 clinical cases, 719
- relation of cerebrum to cerebellum, cerebellar tremor in cat and its absence after removal of cerebral hemispheres, *542
- removal of right cerebral hemisphere for infiltrating glioma, 470
- results of stimulation of tegmentum with Horsley-Clarke stereotaxic apparatus, *513
- roentgenography; encephalography; anatomic and clinical correlations, *1326
- roentgenography; colloidal thorium dioxide preparation in arterial encephalography, 928
- sensory cortical area; experimental anatomic investigation, *871
- skeletal malformations and striatal syndrome, 201
- spongioblastomas of, 1223
- suppuration in cerebral ventricles, complicating chronic otorrhea, 1205
- tumors as cause of generalized epileptic attacks of long standing, 923
- tumors, blood pressure observations in tumors of brain, *891
- tumors; calcified angioma of brain; report of case, 951
- tumors; chiasmal symptoms in intracranial tumors, 180
- tumors; diagnosis of intracranial tumors by supravital technic, *299
- tumors; disorders of optic nystagmus due to cerebral tumors, *1007
- tumors, frequency with which tumors in various parts of brain produce certain symptoms, *969
- tumors and jacksonian attacks, 747
- tumors, localization of intracranial tumors by Bárány method, 226
- tumors, neurologic symptomatology of subtentorial tumors, 427
- tumors, new method of experimental study of tumors of brain, 914
- tumors of anterior cranial fossa in feeble-minded patient with encephalopathy and acromegaly and with integrity of hypophysis, 438
- tumors of third ventricle, *990

INDEX TO VOLUME 28

- Brain—Continued
tumors, roentgenotherapy of tumors of brain, 920
tumors; value of lumbar puncture in diagnosis of suspected tumor, 1212
tumors; venous and arteriovenous angiomas of brain; clinical and roentgenographic study of 8 cases, 946
unusual case of extrapyramidal syndrome, 930
vasodilator nerves and their pathway from medulla oblongata, with observations on pial and intracerebral vascular plexus, *1257
- Brickner, R. M.: Experiences in treatment of multiple sclerosis with quinine hydrochloride, *125
Some principles in therapy of multiple sclerosis, 1229
- Brock, S.: Venous and arteriovenous angiomas of brain; clinical and roentgenographic study of 8 cases, 946
- Brody, B. S.: Effect of hyperventilation on excitability of motor cortex in cats; experimental study, *571
- Bromberg, W.: Tactual imagination and tactual after-effects, 1440
Tactual perception in alcoholism; study of influence of alcoholic and of other psychotic states on tactual after-effects, *37
- Burns, M. A.: Multiple sclerosis in father and daughter, 1446
- Burr, C. W.: Charles Karsner Mills, *1390
Buscalino reaction, notes on, 1438
- Cadwalader, W. B.:** Charles Karsner Mills, *1390
Traumatic sensory aphasia with recovery, 225
Caffeine, effect on cerebral vessels, *1290
- Calcium content of brain and its distribution in various regions during diallylbarbituric acid narcosis; experimental study, *405
proteins and inorganic phosphorus in experimental vitamin B deficiency and inanition, 202
subdural calcium deposit of spinal cord, *416
- Cancer, rôle of pituitary in etiology of, 917
- Carbon monoxide poisoning, hyperkinetic manifestations in case of, 221
- Catatonia: See Dementia Praecox
- Cauda equina: See Spinal Cord
- Causalgia: See under Neuralgia
- Ceni's genocutireaction in young subjects, 721
- Cerebellum, corticofugal and association fibers arising from cortex of vermis of cerebellum, *1
relation of cerebrum to cerebellum; cerebellar tremor in cat and its absence after removal of cerebral hemispheres, *542
- Cerebrospinal Fluid, action of certain drugs on pressures of spinal fluid, internal jugular vein and systemic arteries of man, 453
bilirubin in, 451
colloidal gold reaction as diagnostic and prognostic aid in neurosyphilis, 914
Kafka paraffin reaction of, 912
pathogenesis of changes in spinal fluid in meningitis, *778
reaction of Takata-Ara, 921
relationship between water balance, spinal fluid pressure and epileptic convulsions, 956
- Cerebrum: See Brain
- Chickenpox and herpes zoster convalescent serotherapy, 928
- Choked disk: See Neuritis, optic
- Chondromas, extradural ventral chondromas, their favorite sites, spinal cord and root symptoms they produce and their surgical treatment, 1203
- Chordoma, intracranial chordoma, report of case, *413
- Chordotomy: See Spinal Cord, surgery
- Chorea, Huntington's disease, 1210
posthemiplegic athetosis; report of case; rôle of corticospinal pathways in production of choreiform and athetoid movements, *1091; correction, 1415
Sydenham's, 449
- Chorobski, J.: Cerebral vasodilator nerves and their pathway from medulla oblongata, with observations on pial and intracerebral vascular plexus, *1257
- Choroiditis, medullated nerve fibers associated with, 1438
- Claustrium, form and gray connections of human claustrum, 922
- Clifford, M. H.: Paraplegia associated with nontuberculous kyphoscoliosis, 203
- Cobb, S.: Cerebral circulation; vagal pathway of vasodilator impulses, *1243
Muscle tonus; critical review on work presented at International Neurological Congress in 1931, *661
Pathway of vagus impulses to cerebral vessels, 235
- Coccygalgia amenable to spinal treatment, 927
- Cohen, S. J.: Relation between myasthenia gravis and exophthalmic goiter, *1338
- Constipation amenable to spinal treatment, 927
- Contracture, Dupuytren's, and heredity, 452
new theory of origin of Dupuytren's contracture, 955
- Convulsions, epileptiform convulsions produced by stimulation of labyrinth, 1454
influence of fluid intake on intracranial pressure in man, 237
jacksonian attacks and tumor of brain, 747
- Cooper, M. J.: Transient hemiplegia in syphilitic patient, 218
- Cornwall, L. H.: Pneumorrhachoclysis and cervicolumbar irrigation in meningococcal meningitis, 1440
- Corpus striatum, modification of histologic picture of corpus striatum in persons dying of various diseases, 1428
- Correction to Cobb's paper "Causes of Epilepsy" in May issue (27:1245, 1932), 172
to Thomas' paper "Posthemiplegic Athetosis," in November issue (28:1091, 1932), 1415
- Covell, W. P.: Nerve degeneration in poliomyelitis; correlation of fiber changes in nerves with cellular changes in spinal cord, *1056
- Crandall, L. A., Jr.: Effect of experimental hepatic damage on hemato-encephalic barrier, *1383
Effect of liver damage on nerve tissue, 737
- Cranium, abnormal type of retinal arterial pressure in intracranial hypertension due to tumor, 929
- brain in Paget's disease of skull, 1425
diabetes insipidus following fractured skull, 200
fracture of skull in children, 175
hyperostosis associated with overlying fibroblastoma, *339
influence of fluid intake on intracranial pressure in man, 237
intracranial chordoma, report of case, *413

INDEX TO VOLUME 28

- Cranium—Continued
 localization of intracranial tumors by B \acute{a} r \acute{a} ny method, 226
- Criminal confessions under narcosis, 1221
- Cyclopean goat, brain in, 179
- Cyst, angiomatosis retinae with cerebellar cyst (Lindau's disease), 1201
 colloid cyst of third ventricle, 726
 effects of necrobiotic agents on walls of cysts experimentally produced in brains of dogs, *1046
- Damon, LeG. A.: Basal metabolic rate in epilepsy, report of 350 cases, *120
- Davis, H.: Action currents in central nervous system; action currents of auditory tracts, *1104
- Davis, L.: Laminectomy with posterior root section for angina pectoris, 734
 Relation of modification of muscle tonus to interruption of certain anatomic pathways, *586
- Deaf and dumb; further investigations on cortical architecture in, 1433
- Dearborn, G. V. N.: Congenital general analgesia, 949
- Decerebrate rigidity in clinic, 927
- Delinquency and broken homes, 740
 investigation of delinquent, mentally abnormal girls, 916
 treatment for delinquent behavior, 739
- Dementia Paralytica: See Paralysis, general
- Dementia Praecox, analysis of schizophrenia problem from standpoint of investigator, 442
 and periodic psychosis, 725
 hematoencephalic barrier in schizophrenia, 198
 heredity among schizophrenics, 177
 oxygen consumption ("basal metabolic rate") in schizophrenia; distributions in 214 cases, *1346
 Pavlov's theory of schizophrenia, 210
 schizophrenia problem, 1430
 significance of histologic lesions of small intestine and of liver in amentia syndromes, 721
 treatment with malaria, 1434
 Worcester state hospital research project in, 454
- Depression: See Melancholia
- Dermatomyositis, 189
- Diabetes insipidus following fractured skull, 200
- Diallylbarbituric Acid: See Barbitol
- Diethelm, O.: Panic, *1153
- Diplopia, transitory diplopia in old people, 1439
 without apparent limitation of ocular movements: rapid recovery after removal of nasal tumor, 451
- Dixon, H. H.: Encephalography; anatomic and clinical correlations, *1326
- Dorsey, J. M.: Action current studies of simultaneously active disparate fields of central nervous system of rat, *331
- Dumb, further investigations on cortical architecture in deaf and dumb, 1433
- Dusser de Barenne, J. G.: Effect of hyper-ventilation on excitability of motor cortex in cats; experimental study, *571
- Dyke, C.: Venous and arteriovenous angiomas of brain: clinical and roentgenographic study of 8 cases, 946
- Dystonia: See under Muscle
- Dystrophia adiposogenitalis, contribution to pathogenesis and heredity of Laurence-Biedl syndrome (dystrophia adiposogenitalis, retinitis pigmentosa, mental deficiency and polydactylism), 1208
- Ear, conduction of labyrinthine impulses to cortex in experimental epilepsy, 1231
 epileptiform convulsions produced by stimulation of labyrinth, 1454
 reticulum of ciliated cells of labyrinth of mouse and its independence from nerve endings of eighth pair, 198
- Ebaugh, F. G.: Encephalography; anatomic and clinical correlations, *1326
- Eckel, J. L.: Brain in acute rheumatic fever; nonsuppurative meningo-encephalitis rheumatica, *844
- Eisele, C. W.: Effect of experimental hepatic damage on hemato-encephalic barrier, *1383
- Eisenhardt, L.: Diagnosis of intracranial tumors by supravital technic, *299
- Electric current; asymmetric susceptibility to alternating current, 452
- Electrophysiology; asymmetric susceptibility to alternating current, 452
- Encephalitis: See also Encephalomyelitis disseminata; clinical and anatomic report of case with features akin to multiple sclerosis and diffuse sclerosis, *1072
 does an etiologic relationship exist between virus of herpes simplex and virus of epidemic encephalitis? 1418
 histology of cerebral peduncle in cuttings made opposite point of emergence of common oculomotor nerve in encephalitis with paralysis of that nerve, 711
 inflammatory disease of central nervous system; so-called nonsuppurative encephalitis and encephalomyelitis, *810
 obsessive phenomena in epidemic encephalitis, 188
 ocular complications of chronic epidemic encephalitis, 720
 otogenous, of nonepidemic type, 192
 pathologic anatomy of epidemic encephalitis, 722
 polio-encephalitis, 449
 polioencephalitis, inflammation of gray substance of cerebral trunk (superior and inferior polioencephalitis) after antirabic vaccination, 919
 polioencephalitis; Parinaud's syndrome with exaggeration of tonus reflexes in case of hemorrhagic polioencephalitis, 185
 postural persistence in postencephalitis, 952
 progressive degenerative subcortical encephalopathy (Schilder's disease), 933
 spasms of function in epidemic encephalitis, 709
 speech disturbance as sequel to epidemic encephalitis, 2 cases, 456
 speech disturbance in epidemic encephalitis, unique type, 953
 treatment of post-encephalitic children in hospital school, 724
 treatment of epidemic encephalitis: review of work of Matheson commission, *897
 velopharyngolaryngeal manifestations of epidemic encephalitis, 717
- Encephalography: See under Brain, roentgenography
- Encephalomyelitis disseminata; right bilateral homonymous, upper and left lower quadrantanopia in encephalomyelitis, 1452
 disseminated, following spinal anaesthesia, 451

INDEX TO VOLUME 28

- Encephalomyelitis**—Continued
inflammatory disease of central nervous system; so-called nonsuppurative encephalitis and encephalomyelitis, *810
researches on pathology of certain encephalomyelitides due to viruses, 908
- Endocrine Glands:** ocular convergence, its relation to basal metabolism and endocrine disease, 920
- Epilepsy,** basal metabolic rate in epilepsy, report of 350 cases, *120
bio-analysis of epileptic reaction, 1216
cerebral tumour as cause of generalized epileptic attacks of long standing, 923
cholesterol content of blood in epilepsy and in feeble-mindedness, *357
conduction of labyrinthine impulses to cortex in experimental epilepsy, 1231
epileptiform convulsions produced by stimulation of labyrinth, 1454
extramural patients with epilepsy with reference to frequent absence of deterioration, *370
influence of fluid intake on intracranial pressure, 237
pathophysiologic, pathohistologic and surgical-therapeutic experiences in, 715
relationship between water balance, spinal fluid pressure and epileptic convulsions, 956
- Epitheliomas,** squamous cell, of hypophysis, 432
- Erythromelalgia** and other disturbances of extremities accompanied by vasodilatation and burning, 916
- Evans, J. P.:** Recovery of sensation in denervated pedicle and free skin grafts, 1224
- Exophthalmos** in infantile scurvy, 430
- Extremities,** differentiation of peripheral arterial spasm and occlusion in ambulatory patients, 186
- Eye:** See also under special structures of eyes, l. e., Optic chiasm; Retina; etc.
absence; optic pathways in case of congenital anophthalmos, 439
accommodation, subnormal, 1209
convergence; its relation to basal metabolism and endocrine disease, 920
effect of strychnine on ocular reflexes, 929
epipapillary tissues, 1197
hemorrhage; bradycardia with prolonged lipothymia following a traumatic intraocular hemorrhage, 1436
movements; attempt to classify some ocular synkineses, 1430
movements; corticonuclear tracts for associated ocular movements, *251
movements; diplopia without apparent limitation of ocular movements; rapid recovery after removal of nasal tumor, 451
movements; graphic representation of motor anomalies by method of Hess, 1439
movements; Parinaud's syndrome with exaggeration of tonus reflexes in case of hemorrhagic poli-encephalitis, 185
- Face,** alternating syndrome of red nucleus with involuntary movements of face and forearm, 717
bilateral facial spasm (paraspasme bilaterale of Sicard), 1226

INDEX TO VOLUME 28

- Psychotherapy, principles of psychotherapy in psychoses, 1424
- Pulse rate; bradycardia with prolonged lipothymia, following a traumatic intraocular hemorrhage, 1436
- Pupils; mydriasis and peritonsillar abscess, 928
pseudo-Argyll Robertson pupils with absent tendon reflexes, benign disorder simulating tabes dorsalis, 924
Reflex: See under Reflexes
- Putnam, T. J.: Experimental multiple sclerosis in dogs from injection of tetanus toxin, 236
Section of extrapyramidal tracts in treatment of dystonia musculorum deformans, 208
Value of lumbar puncture in diagnosis of suspected tumors of brain, 1212
- Quadrantanopia**, 1452
- Quinine amaurosis, 929
- Rabies**, effects of antirabic vaccine on certain painful conditions, 913
Inflammation of gray substance of cerebral trunk (superior and inferior polioencephalitis) after antirabic vaccination, 919
types of virus that show close biologic relationships with herpes virus (pollyomyelitis, lyssa, Borns's disease), 1419
- Ranson, S. W.: Effects of lesions in red nuclei in cats, *483
Results of stimulation of tegmentum with Horsley-Clarke stereotaxic apparatus, *513
- Rathke's pouch, should adenomas of hypophysis and cysts of Rathke's pouch be considered as suprasellar or intrasellar tumors? 1439
- Red Nucleus: See Tegmental nucleus
- Reflexes, conditioned, and hysteria, 714
Parinaud's syndrome with exaggeration of tonus reflexes in case of hemorrhagic poli-encephalitis, 185
pseudo-Argyll Robertson pupils with absent tendon reflexes; benign disorder simulating tabes dorsalis, 924
some postural reflexes in man, *649
- Retina, abnormal type of retinal arterial pressure in intracranial hypertension due to tumor, 929
angiomatosis retinae with cerebellar cyst (Lindau's disease), 1201
blue arcs of, 423
changes in hypertension and in renal disease, 195
considerations of pressure in central vein of retina, 1439
cytologic studies of, 436
influence of stimulation of sympathetic on, 452
retinal perivascular delineation, 716
unilateral instability of pressure in retinal arteries in sympathetic hemi-excitation syndrome, 450
ways in which distance of test field affects determinations of retinal sensitivity, 1423
- Retinitis pigmentosa, contribution to pathogenesis and heredity of Laurence-Biedl syndrome (dystrophia adinosogenitalis, retinitis pigmentosa, mental deficiency and polydactylism), 1208
- Rheumatic fever, brain in acute rheumatic fever; nonsuppurative meningo-encephalitis rheumatica, *844
- Rhinorrhoea, occupational, spasmodic, 723
- Richter, C. P.: Injury and repair within sympathetic nervous system; evidence of activity of postganglionic sympathetic neurons independent of central nervous system, *1149
- Richter, C. P.—Continued
Injury and repair within sympathetic nervous system, postganglionic neurons, *1139
- Richter, H.: Encephalitis disseminata; clinical and anatomic report of case with features akin to multiple sclerosis and diffuse sclerosis, *1072
- Rigidity, progressive pallidal rigidity and congenital regressive rigidity, 2 clinical cases, 719
- Rioch, D. M.: Relation of cerebrum to cerebellum; cerebellar tremor in cat and its absence after removal of cerebral hemispheres, *542
- Rivers, T. M.: Relation of filtrable viruses to diseases of nervous system, *757
- Rorschach tests, inconstancy of formal structure of personality; experimental study of influence of mescaline on Rorschach test, *52
- Rosen, I.: Lecithin and cholesterol in cerebrospinal syphilis including dementia paralytica and tabes, *399
- Sacro-Iliac** conditions amenable to spinal treatment, 927
- Saul, L. J.: Action currents in central nervous system, action currents of auditory tracts, *1104
- Scalp, malignant neurofibroma of scalp; report of case, *167
- Schaeffer, P. N.: Juvenile court as social instrument, 740
- Schilder, P.: Tactual imagination and tactual after-effects, 1440
- Schilder's Disease: See under Encephalitis
- Schizophrenia: See Dementia praecox
- Sciatica amenable to spinal treatment, 927
- Sclerosis, amyotrophic, spinal syphilis under picture of, 1419
diffuse and multiple, 1196
encephalitis disseminata; clinical and anatomic report of case with features akin to multiple sclerosis and diffuse sclerosis, *1072
multiple, experiences in treatment with quinine hydrochloride, *125
multiple, experimental multiple sclerosis in dogs from injection of tetanus toxin, 236
multiple; histogenesis of experimental sclerotic plaques and their relation to multiple sclerosis, 1208
multiple, in father and daughter, 1446
multiple; perivascular lesions of Borst in multiple sclerosis (hyperlymphosis or status disintegrations), 184
multiple; right bilateral homonymous, upper and left lower quadrantanopia in multiple sclerosis, 1452
multiple, statistical study of, 1191
multiple, therapy of, 1229
- Scurvy, exophthalmos in infantile scurvy, 430
- Secretions, internal: See Endocrine Glands
- Selinsky, H.: Intracranial chordoma; report of case, *413
- Selling, L. S.: Postural persistence in post-encephalitis, 952
- Sensation, recovery of sensation in denervated pedicle and free skin grafts, 1224
studies in sensation; chemical factor in stimulation of end-organ giving temperature sensations, *71
tactual perception in alcoholism; study of influence of alcoholic and of other psychotic states on tactual after-effects, *37
- Sex, psychosexual development of child, 183

- Stomach, achylia; etiological relationship of achylia gastrica to pernicious anemia, 442
 sympathetic innervation of stomach; interaction of vagus and sympathetic nerves, 443
- Strychnine, effect on muscle tonus, 451
 effect on ocular reflexes, 929
- Stuttering: See under Speech
- Subarachnoid Space: See Meninges
- Sugar in Blood: See under Blood
- Suprarenals, alterations of sympathetic cells of human suprarenal gland, 924
 tumors of suprarenal gland with reference to carcinoma of cortex, 448
- Sylvian aqueduct, tumor of pineal body invading sylvian aqueduct, 950
- Syphilis, chronic syphilitic poliomyelitis, *151
 fate of cerebrospinal syphilis cases treated with malaria, 1437
 jugular compression in treatment of syphilis of central nervous system, 719
 lecithin and cholesterol in cerebrospinal syphilis including dementia paralytica and tabes, *399
 malaria treatment in asymptomatic neurosyphilis, 440
 significance of colloidal gold reaction as diagnostic and prognostic aid in neurosyphilis, 914
 spinal syphilis under picture of amyotrophic lateral sclerosis, 1419
 transient hemiplegia in syphilitic patient, 218
 treatment of neurosyphilis, 1436
- Syphilophobia, clinical appraisal of, 446
- Tabes Dorsalis;** lecithin and cholesterol in cerebrospinal syphilis including dementia paralytica and tabes, *399
 progress in treatment, 1188
 pseudo-Argyll Robertson pupils with absent tendon reflexes, benign disorder simulating tabes dorsalis, 924
 three cases with unusual findings, 457
- Tactual imagination and tactual after-effects, 1440
 perception in alcoholism, *37
- Takata-Ara reaction, contribution to study of, 921
- Taylor, E. W.: Jacksonian attacks and tumor of brain, 747
- Tegmental Nucleus; alternating syndrome of red nucleus with involuntary movements of face and forearm, 717
 effects of lesions in red nuclei in cats, *483
- Temperature, studies in sensation; chemical factor in stimulation of end-organ giving temperature sensations, *71

INDEX TO VOLUME 28

- Terwilliger, E. H.: Results of stimulation of tegmentum with Horsley-Clark stereotaxic apparatus, *513
- Tetanus, experimental multiple sclerosis in dogs from injection of tetanus toxin, 236
of head without wound of head, 223
- Thomas, J. M.: Posthemiplegic athetosis; report of case; rôle of corticospinal pathways in production of choreiform and athetoid movements, *1091; correction, 1415
- Thompson, R. H.: Meralgia paraesthetica, 222
Right bilateral homonymous, upper and left lower quadrantanopia, 1452
- Thorium dioxide, colloidal thorium dioxide preparation in arterial encephalography, 928
- Thrombo-anglitis obliterans, results of treatment by foreign protein, 923
- Thyroid dysfunction, influence of hydric nourishment on body development and genesis of goiter and thyroid dysfunction, 1202
factor in family periodic paralysis, report of case, *386
hyperthyroidism associated with parkinsonian syndrome, 437
production of hyperplasia by chemical means, 926
- Tillotson, K. J.: Some newer trends in psychiatry and their application at McLean and Massachusetts General Hospitals, 1214
- Tissues, epipapillary, 1197
extracts, unidentified depressor substance in certain tissue extracts, 446
- Tonsils, relation of tonsils and adenoids to infections in children, 1210
- Torticollis, spasmodic, 1220
- Touch, tactual perception in alcoholism; study of influence of alcoholic and of other psychotic states on tactual after-effects, *37
tactual imagination and tactual after-effects, 1440
